

Welcome to the 2026 TS Division Meeting

Program Group Info

- 21,117 abstracts submitted at the deadline

20,534 active scheduled abstracts in 2026

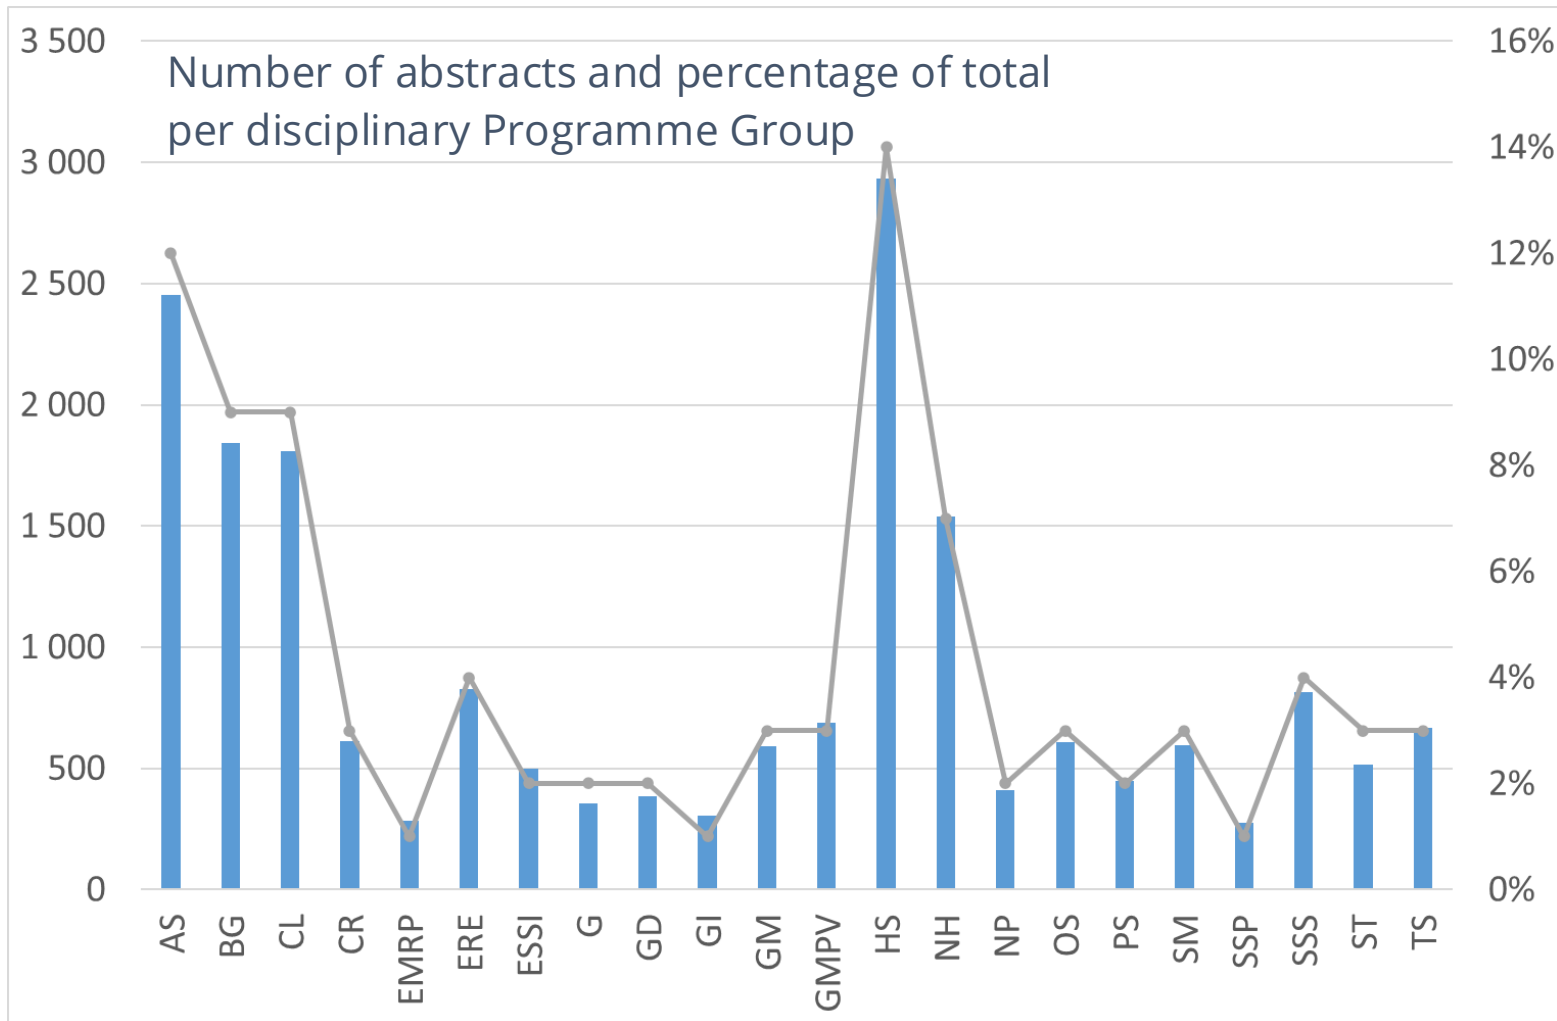

(as of 21 April 2026)

On-site only up to 2019

Online only

Hybrid orals only

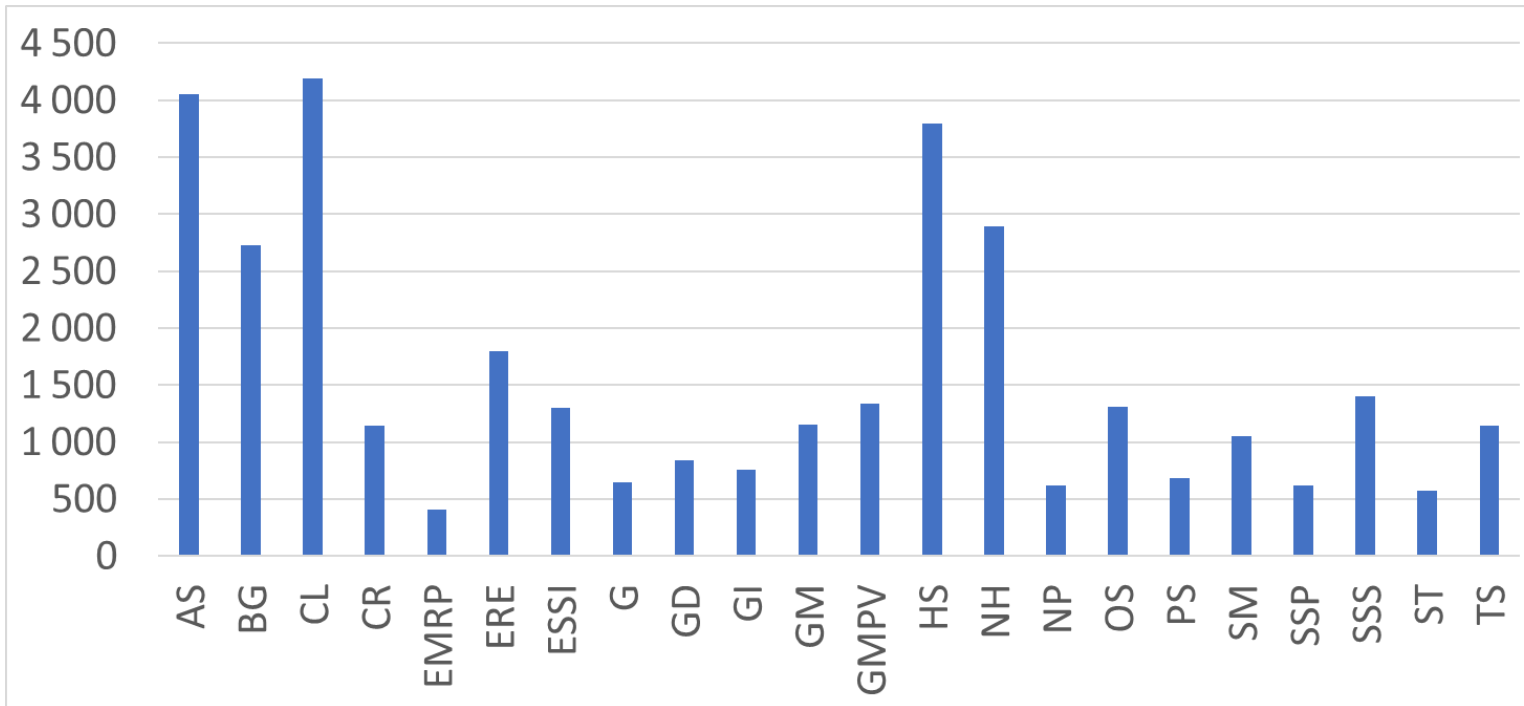

Fully hybrid since 2023

- Overall, about 25 abstracts per session at EGU26
- Presentation types:
 - Orals: 43%
 - PICO: 7%
 - Posters on site: 47%
 - Posters virtual: 3%
- ECS authors: 58%

(as of 21 April 2026)

Registration per disciplinary Programme Group

- ~18,000 **registrations** (~8% for **virtual participation**)
- 117 **different countries** for on-site participation; 99 for virtual participation
- **Travel support** for on-site participation: 1,000 eligible applications (22% increase in applications); success rate ~30%)

(note: a participant can choose more than one affiliation)

TS Division within EGU

Vienna, Austria & Online 23-28 April 2023

	Members	ECS
EGU	16,465 Abs	9,326 (57%)
TS Division	580 Abs	336 (58%)

Vienna, Austria & Online 14-19 April 2024

	Members	ECS
EGU	19,573 Abs	10,820 (55%)
TS Division	674 Abs	395 (55%)

16% increase

Vienna, Austria & Online 27 April - 2 May 2025

	Members	ECS
EGU	19,158 Abs	10,656 (56%)
TS Division	526 Abs	288 (55%)

22% decrease

Vienna, Austria & Online 3 May - 8 May 2026

	Members	ECS
EGU	20,269 Abs	11,700 (58%)
TS Division	657 Abs	377 (57%)

25% decrease

How do we build the program?

Bottom-up – your input is extremely important!

- ‘Skeleton’-program: June
- **Open call-for-sessions: June to September**
- First session program (October)
- Call-for-abstracts
- Session merges... (January)
- Final session program (February)

Division Matters

TS Division Medal and Award:

Marie Tharp Medal:

Awarded to scientists in recognition of their outstanding contributions to tectonics and structural geology. Acknowledges exceptional scientific achievements in advancing the understanding of tectonic processes that shape Earth's lithosphere and research that bridges these disciplines across spatial and temporal scales.

Outstanding Early Career Scientist:

Recognises scientific achievement made by an Early Career Scientist in the field(s) covered by the related division.

Marie Tharp 2026: Christian Teyssier

The 2026 Marie Tharp Medal is awarded to Christian Teyssier in light of profound and lasting contributions to the field, dedication to advancing geoscience, and commitment to mentoring the next generation of scientists.

<https://www.egu.eu/awards-medals/marie-tharp/2026/christian-teyssier/>

Medal Lecture

MAL26-TS

Thursday, 7 May
Room G2 – 19.00-19.30

Christian Teyssier

Marie Tharp 2026

At the Core of Orogens

The Marie Tharp/Stephan Mueller Medal committee 2025-26

Chair: Hemin Koyi

Members:

2022:
Francesca Funicello

2023:
Richard G. Gordon

2024:
Yann Klinger

2025:
Yann Klinger

Ex-officio members: TS president João Duarte and chair of the EGU awards committee Marian Holness

Changes in the Medal committee

2022:
Francesca Funicello

2025:
Medalist: Christian Teyssier

The Marie Tharp Medal* committee 2025-26

Chair: Hemin Koyi

Members:

2023:

Richard G. Gordon

2024:

Yann Klinger

2025:

Heidrun Kopp

2026:

Christian Teyssier

Ex-officio members: TS president João Duarte and chair of the EGU awards committee Athanasios Nenes

**Division Outstanding Early Career Scientist Award 2025:
Luca Dal Zilio**

The 2026 Division Outstanding Early Career Scientist Award is awarded to Luca Dal Zilio for fundamental contribution to understanding how deformation localises across time-scales, using cutting-edge research at the intersection of tectonics, geodynamics, and earthquake physics.

Long citation at: <https://www.egu.eu/awards-medals/division-outstanding-ecs-award/2026/luca-dal-zilio/>

TS Division OECSA committee 2025-2026

Chair: **TS president, João Duarte**

Members: Last four awardees

TS Division OECSA committee 2026-2027

Chair: **TS president, João Duarte**

Members: Last four awardees

2022:
Mojtaba Rajabi

2023:
Jessica McBeck

2025:
Renelle Dubosq

2026:
Luca Dal Zilio

2025 OSPP Awardees

Isabel Wapenhans

(PhD Candidate – in 2025 – University of Potsdam)

Can Low-Temperature Thermochronology Constrain Quaternary Glacial Erosion? A Case Study from the Tauern Window, Eastern European Alps

Wapenhans, I.; van der Beek, P.; Colleps, C.; Bernard, M.; Gong, L.; Mariotti, A.; Amalberti, J.

Iván Navarrete

(PhD Candidate – in 2025 – École normale supérieure - PSL)

Inter-event strain localization modulated by background stresses across the Natron Basin, East African Rift

Navarrete, I.; Olive, J.-A.; Calais, E.; Dalaison, M.; de Monserrat, A.

**Please find a moment to select and
nominate colleagues for the
TS medal and for the OECS award!**

Due date is 15th of June

<https://www.egu.eu/awards-medals/nominations/>

How to nominate

Where: <https://www.egu.eu/awards-medals/nominations/>

When: Deadline is **June 15 every year**

What is required:

	Division and Union medals	Outstanding Early Career Scientists Awards
Nomination letter	1 page	1/2 page
Curriculum Vitae	2 pages	1 page
Selected bibliography	2 pages	1/2 page
Supporting letters	3-5 (maximum 1 page each)	-

Was your preprint posted before?

Solid Earth (SE) allows you to submit either original preprints for initial posting and discussion on EGUsphere, EGU's central preprint repository, or preprints that were already posted on a preprint server seeking public discussion on EGUsphere. In both cases, after the public discussion on EGUsphere, the handling editor decides on a possible final journal publication in SE. Please select from the options below.

- My preprint has not been posted anywhere, and I seek public discussion on EGUsphere, EGU's preprint repository
- My preprint has already been posted on a preprint server, and I seek public discussion on EGUsphere

Proceed

EGUsphere topic selection

Please select one or more topics matching your preprint.

Natural hazards

- General topics in natural hazards
- Hydro-meteorological hazards
- Volcanic hazards
- Landslide hazards
- Earthquake hazards
- Sea & ocean hazards
- Remote sensing & hazards
- Wildfire hazards
- Environmental, biological, & natech hazards
- Natural hazards & society
- Multi-hazards
- Interdisciplinary topics in natural hazards

Nonlinear processes in geosciences

Ocean sciences

Planetary & solar system sciences

Seismology

- General topics in seismology
- Seismic instrumentation and infrastructure
- Real-time and time dependent seismology
- Deformation, faulting, and earthquake processes (incl. seismotectonics, geodynamics, earthquake source physics)
- Seismic imaging across scales (from near-surface to global scale, incl. methodological developments)
- Crustal fluids & seismic activity (incl. induced & triggered seismicity, volcano seismology)
- Seismic hazard assessment (earthquake forecasting, engineering seismology, seismic, and/or multihazard probabilistic assessment)
- Computational, theoretical seismology and big data
- Interdisciplinary topics in seismology

Stratigraphy, sedimentology, & palaeontology

Earth Observation, Launched Jan 2026

The journal subject areas :

- **Cryosphere** – snow, sea ice, glaciers, ice sheets, permafrost, lake and river ice
- **Hydrology** – hazards, river dynamics, water quality, lake monitoring, precipitation, and soil moisture
- **Oceanography** – SST, SSH, marine gravity and bathymetry, ocean colour, circulation, coastal processes, and biology
- **Atmosphere** – multidisciplinary topics including atmospheric processes (choose AMT for purely atmospheric studies)
- **Natural hazards** – methods and approaches for observing a wide range of natural hazards
- **Land surface processes** – temperature; biomass; vegetation type, trait, and health; ecology; soil properties; sedimentation and erosion; heat, moisture, and nutrient fluxes (e.g. carbon, methane, and nitrogen)
- **Geodesy** – solid Earth processes, gravity, topography, reference frames, and tides
- **The built environment** – urbanization and urban growth, humanmade infrastructures, urban heat islands, smart cities and urban planning, urban green space and biodiversity, carbon footprint of cities, population dynamics and poverty
- **Instruments, methods, and missions** – new instrument and mission concepts, calibration and validation, and general methodological advances including AI
