

# EGU Author Survey

**First results - September 2021**

**Axel Kleidon**

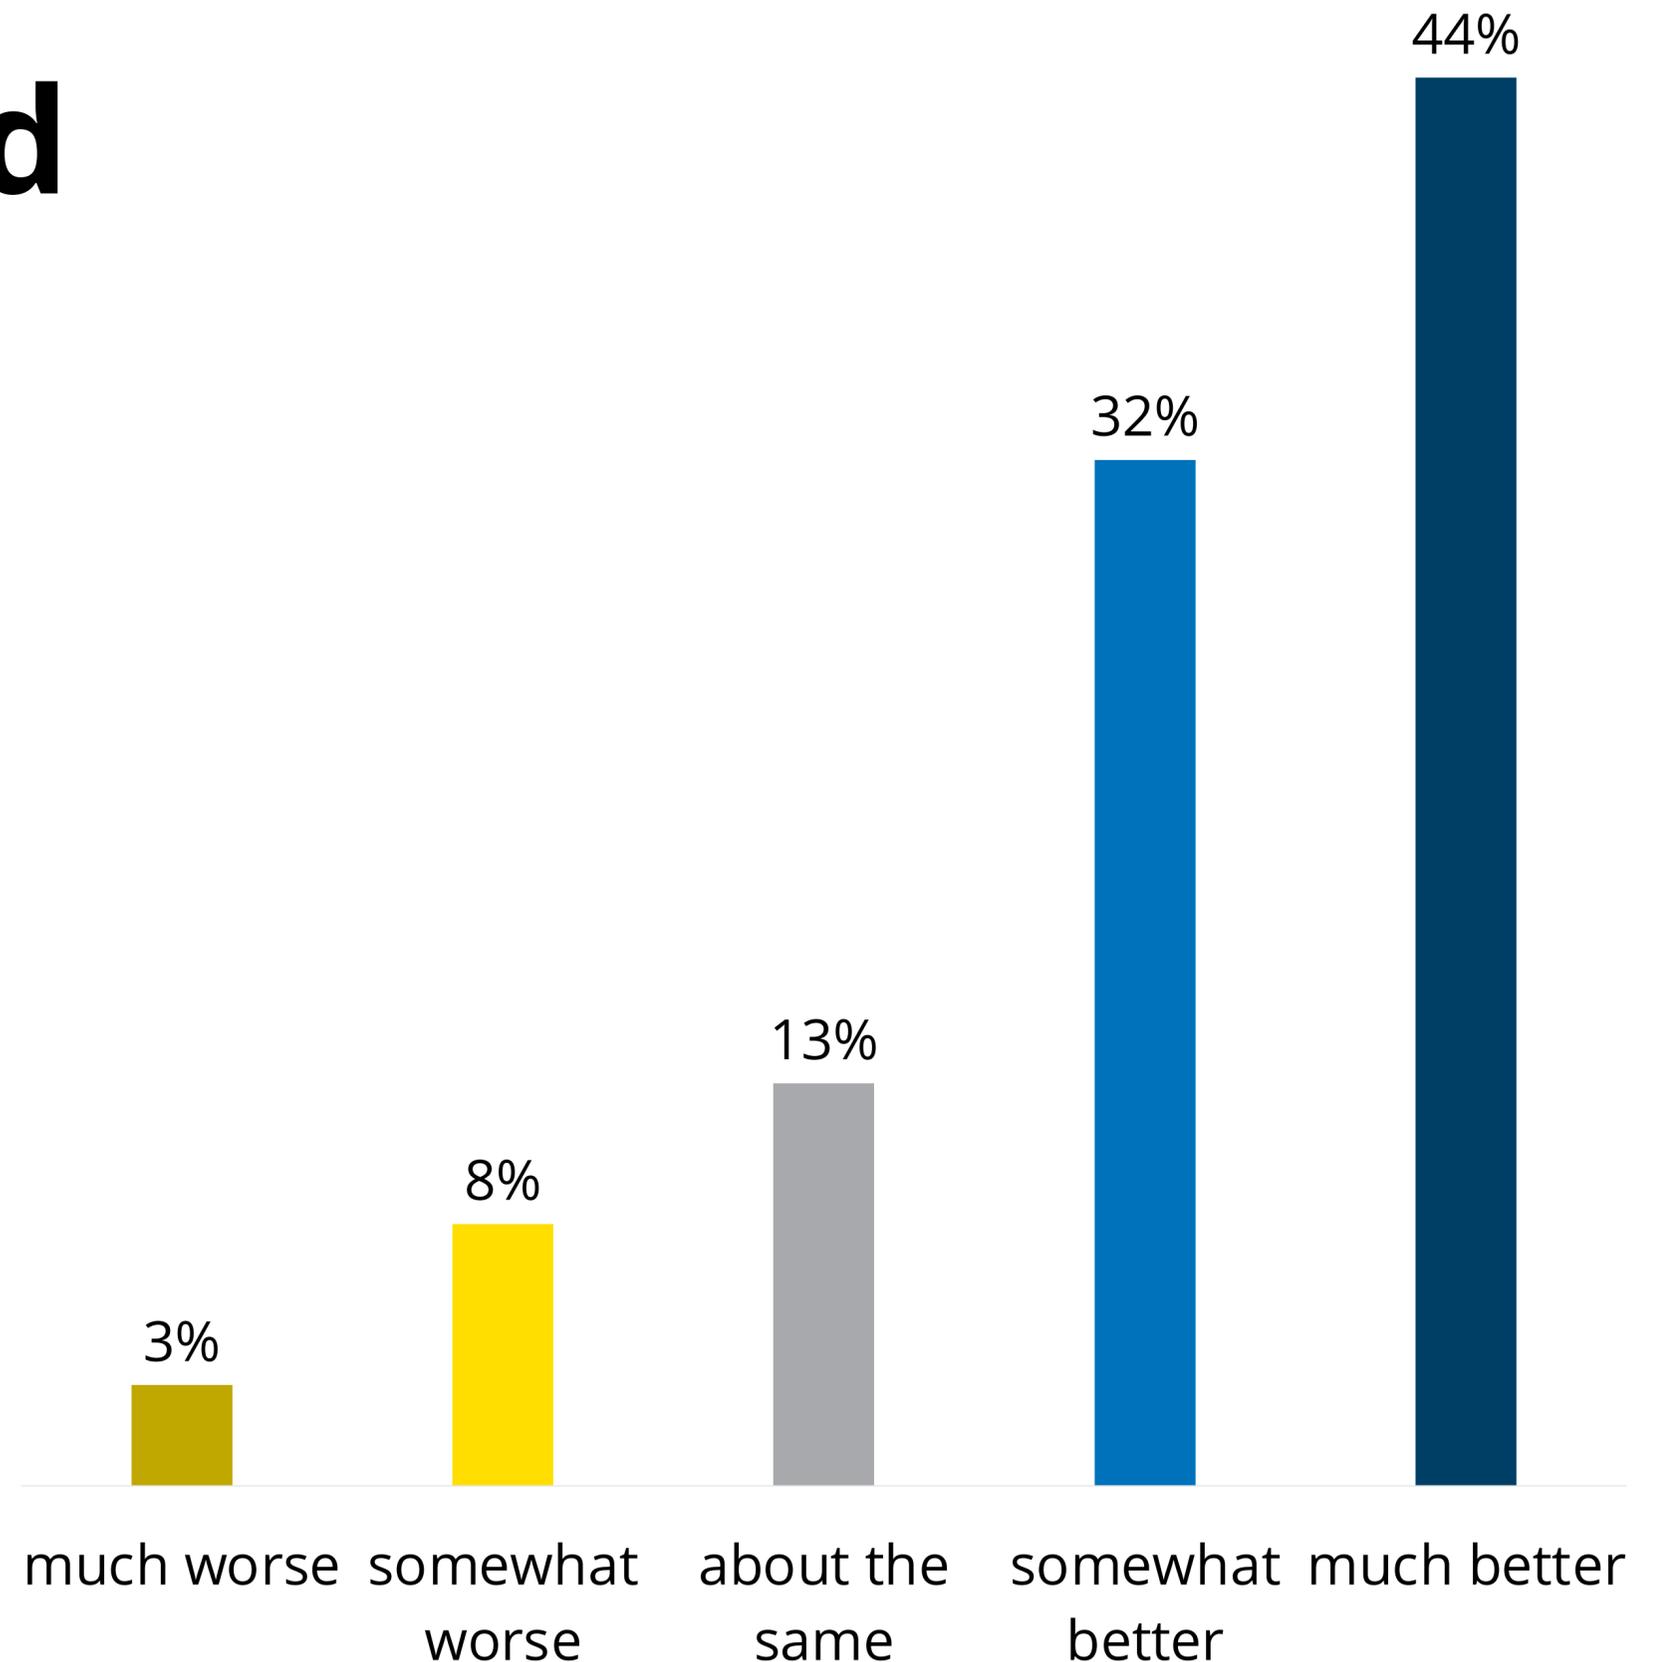

**Contributions and Thanks to:**  
**Philippe Courtial + Simone Aechter (EGU)**  
**Katja Fennel (Pub Comm)**  
**Martin Rasmussen (Copernicus)**

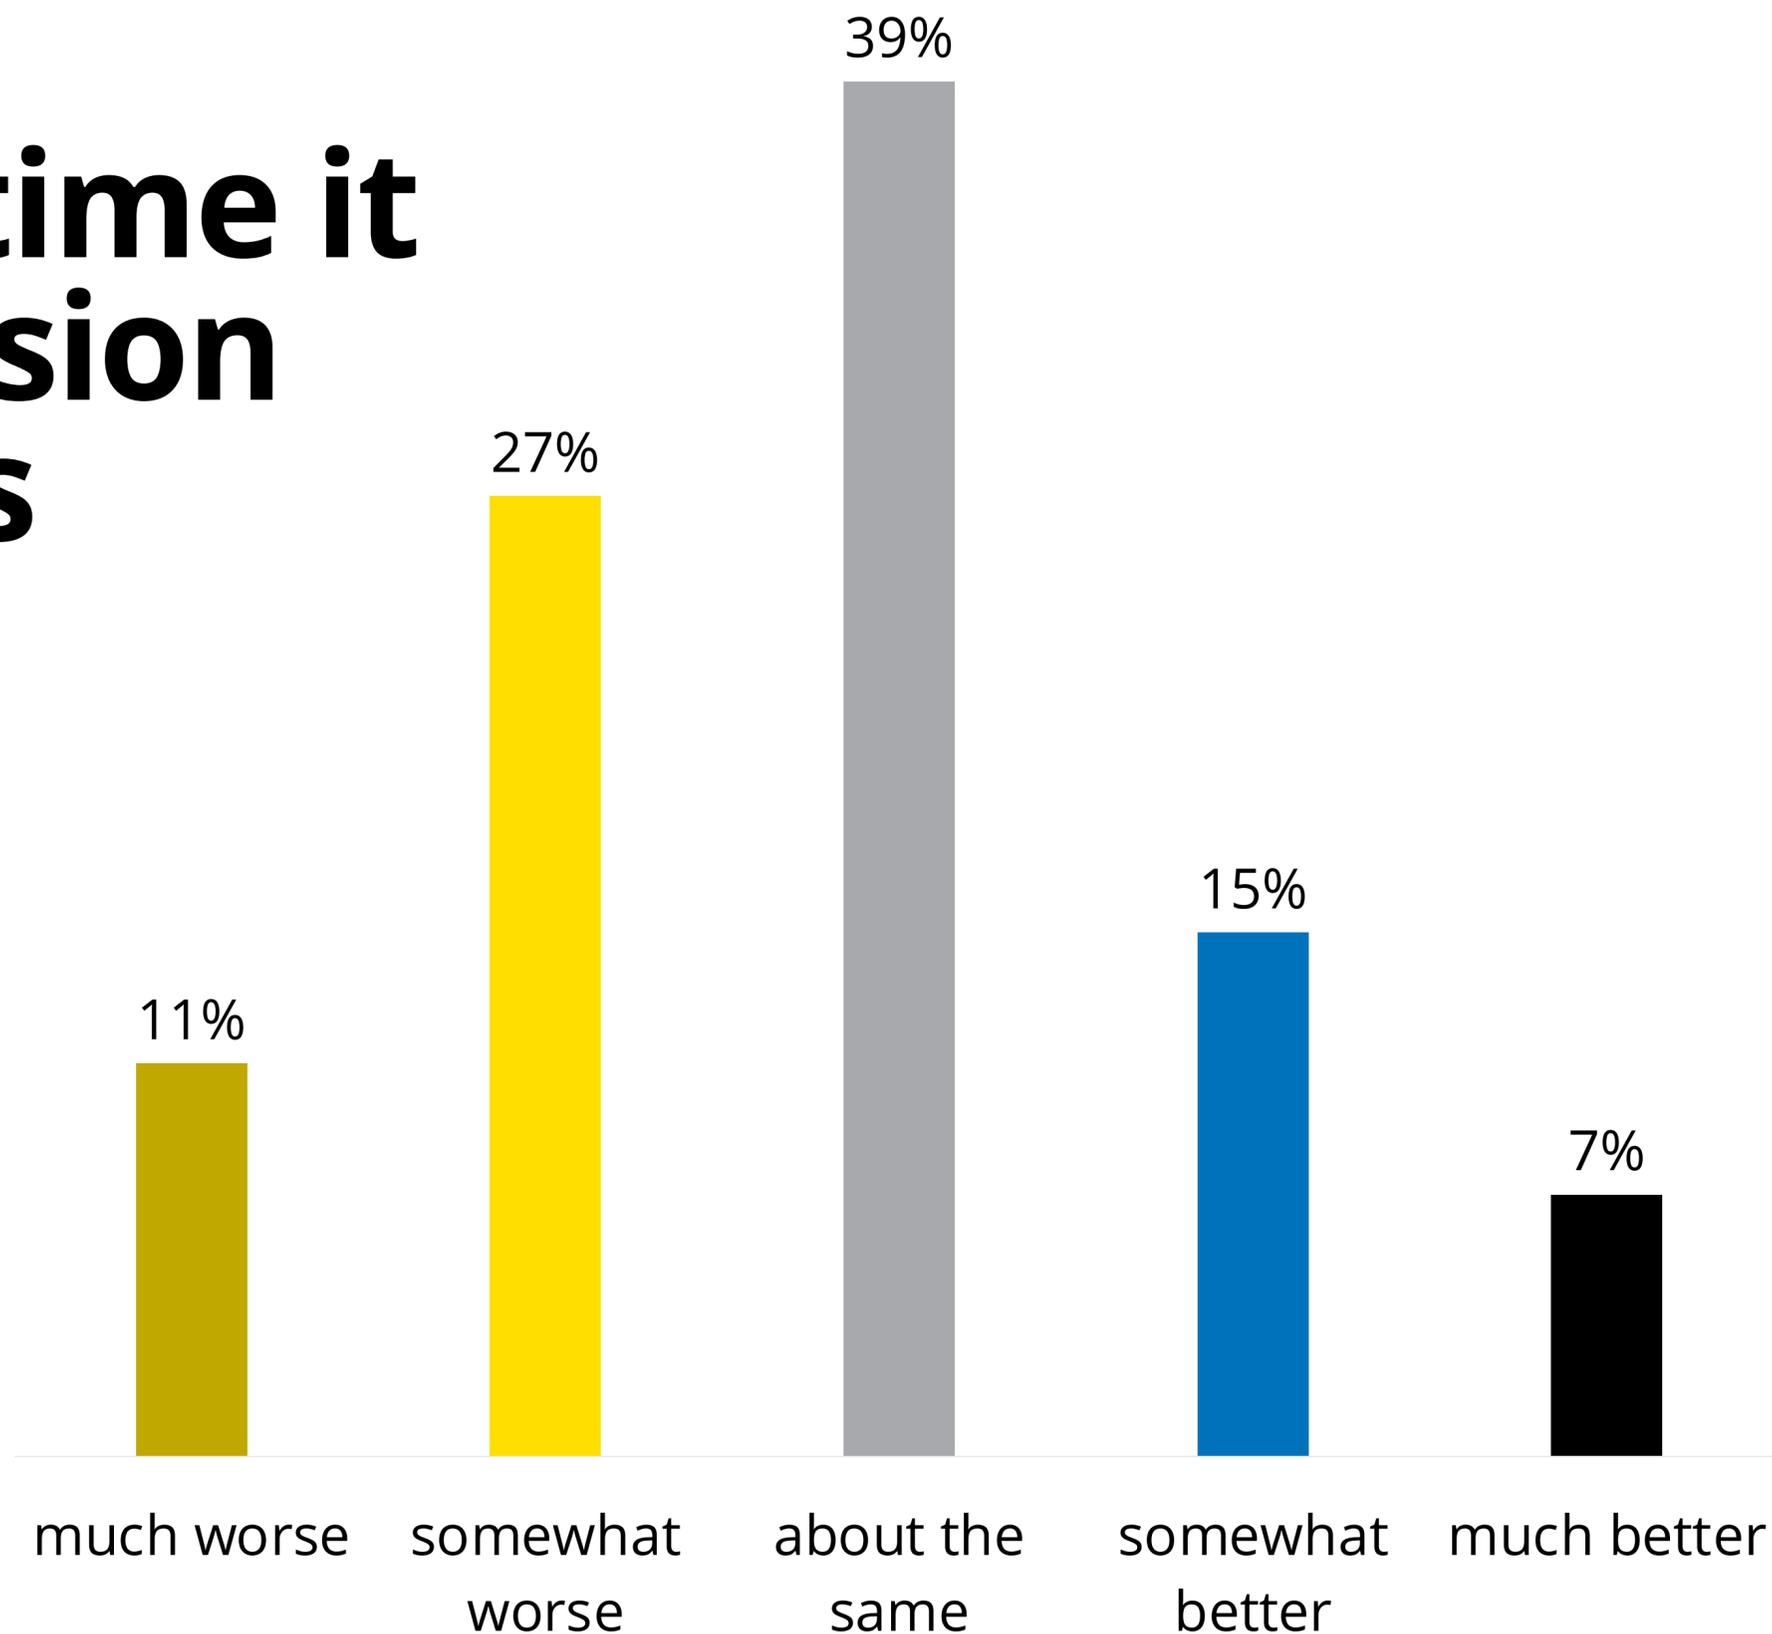

# The Data

27 April - 10 September 2021 (136 days)  
 1454 papers published  
 163 replies received  
 11.2% of published papers

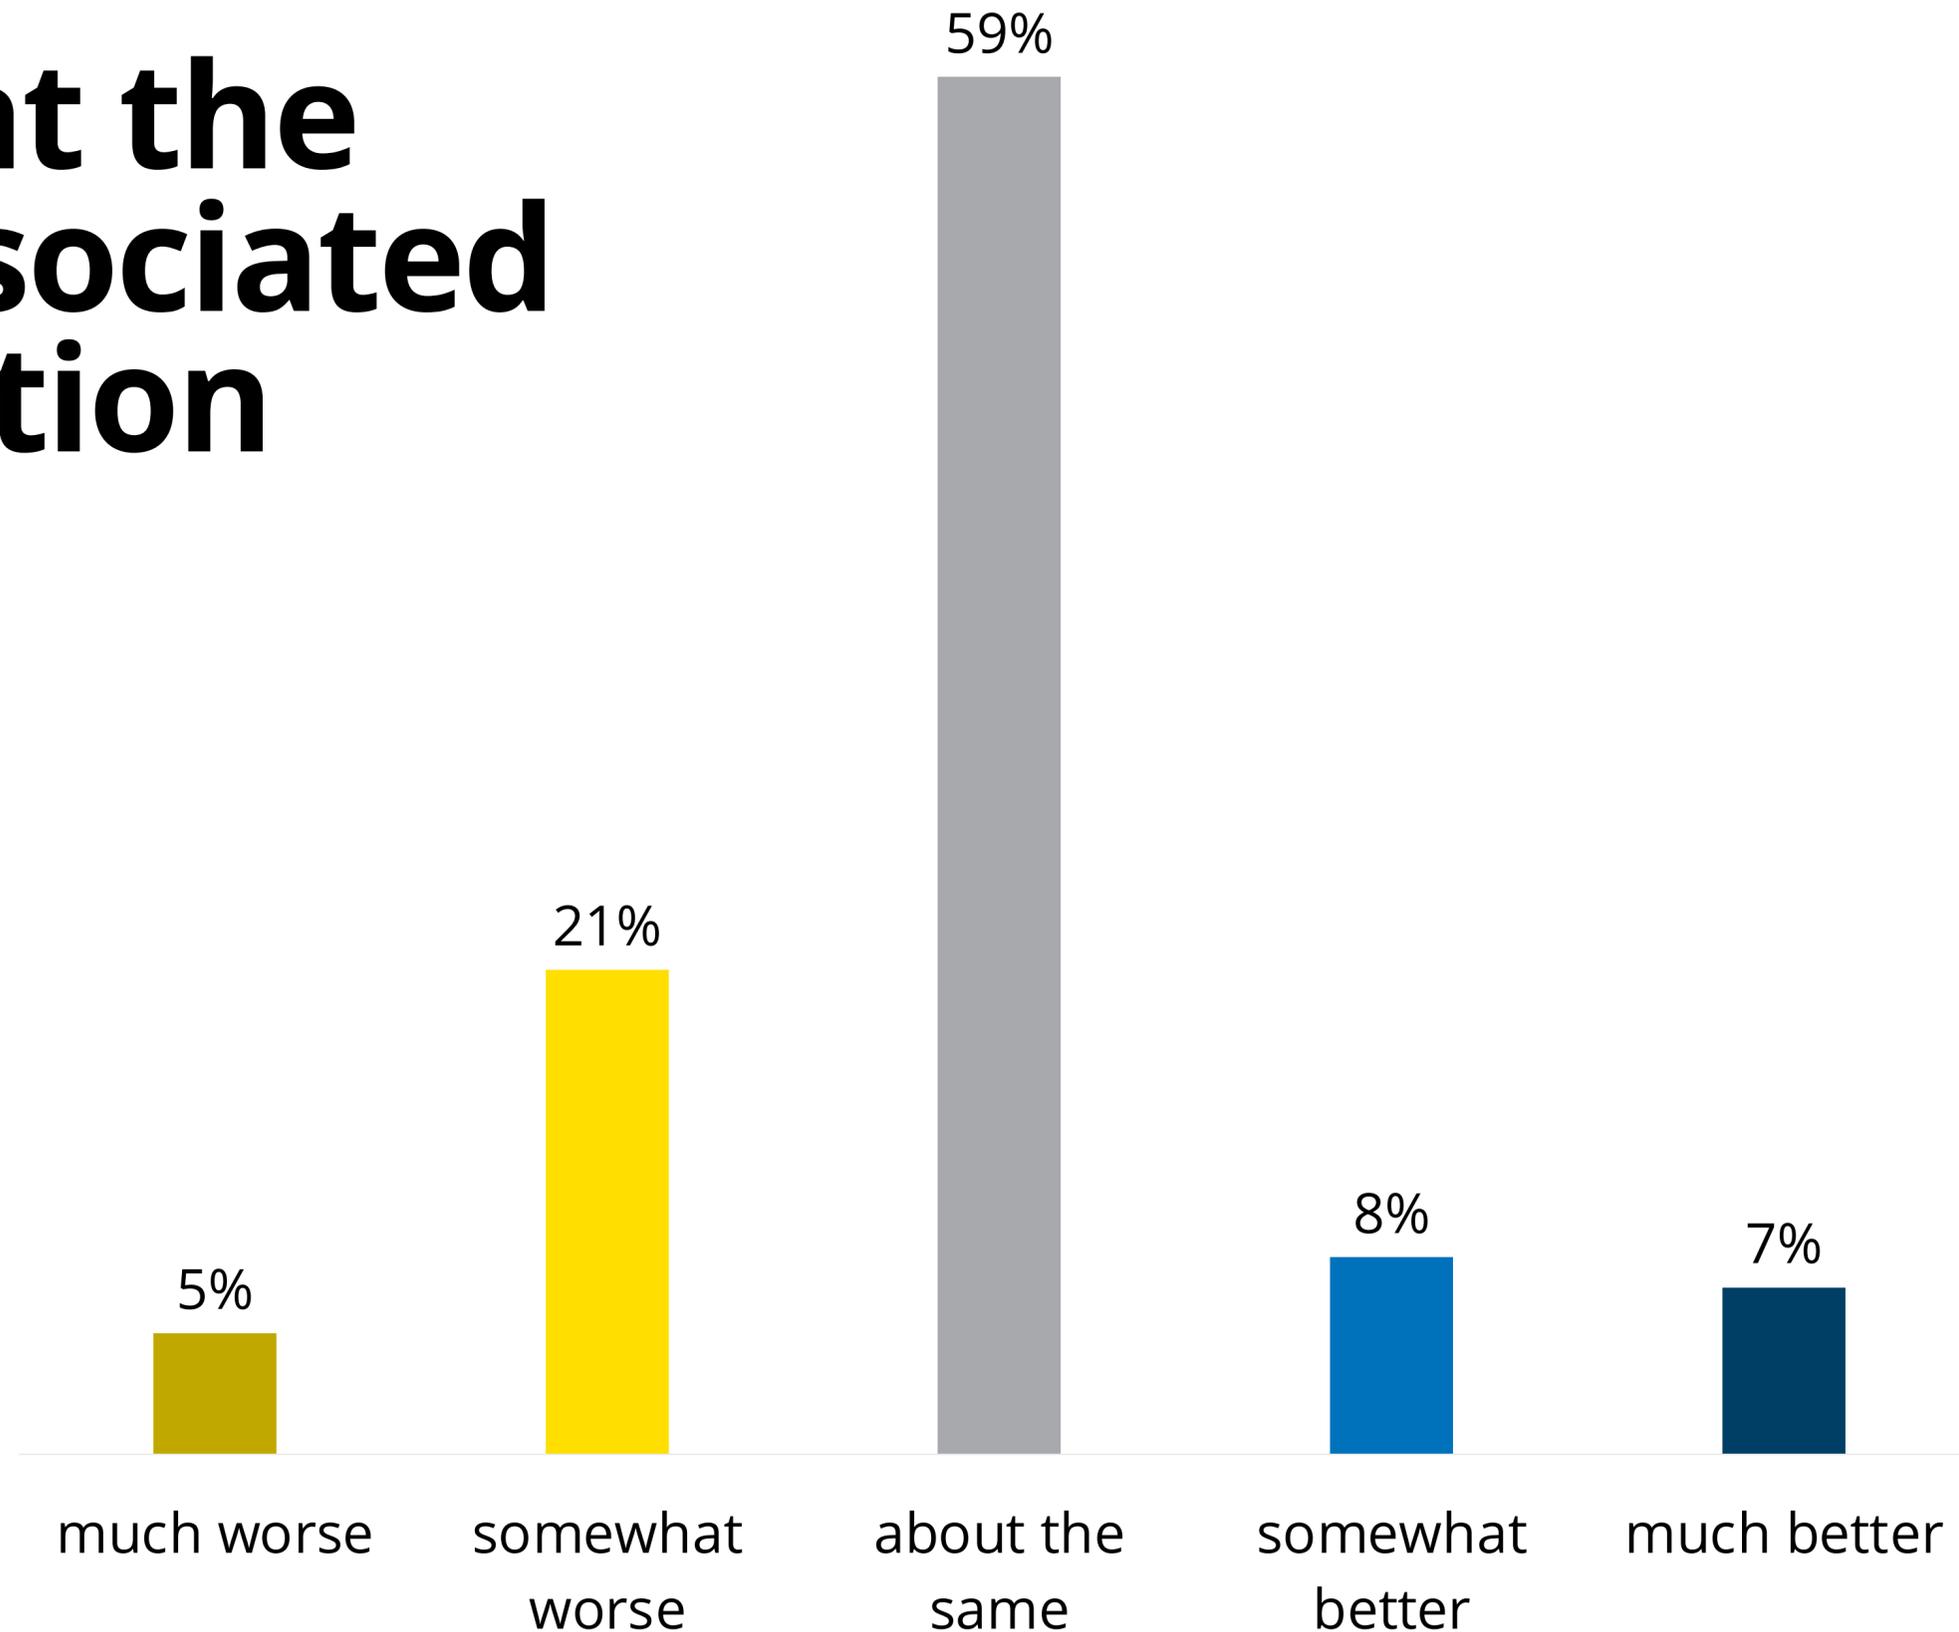

# Overall, how satisfied are you with your recent publication process in an EGU journal?

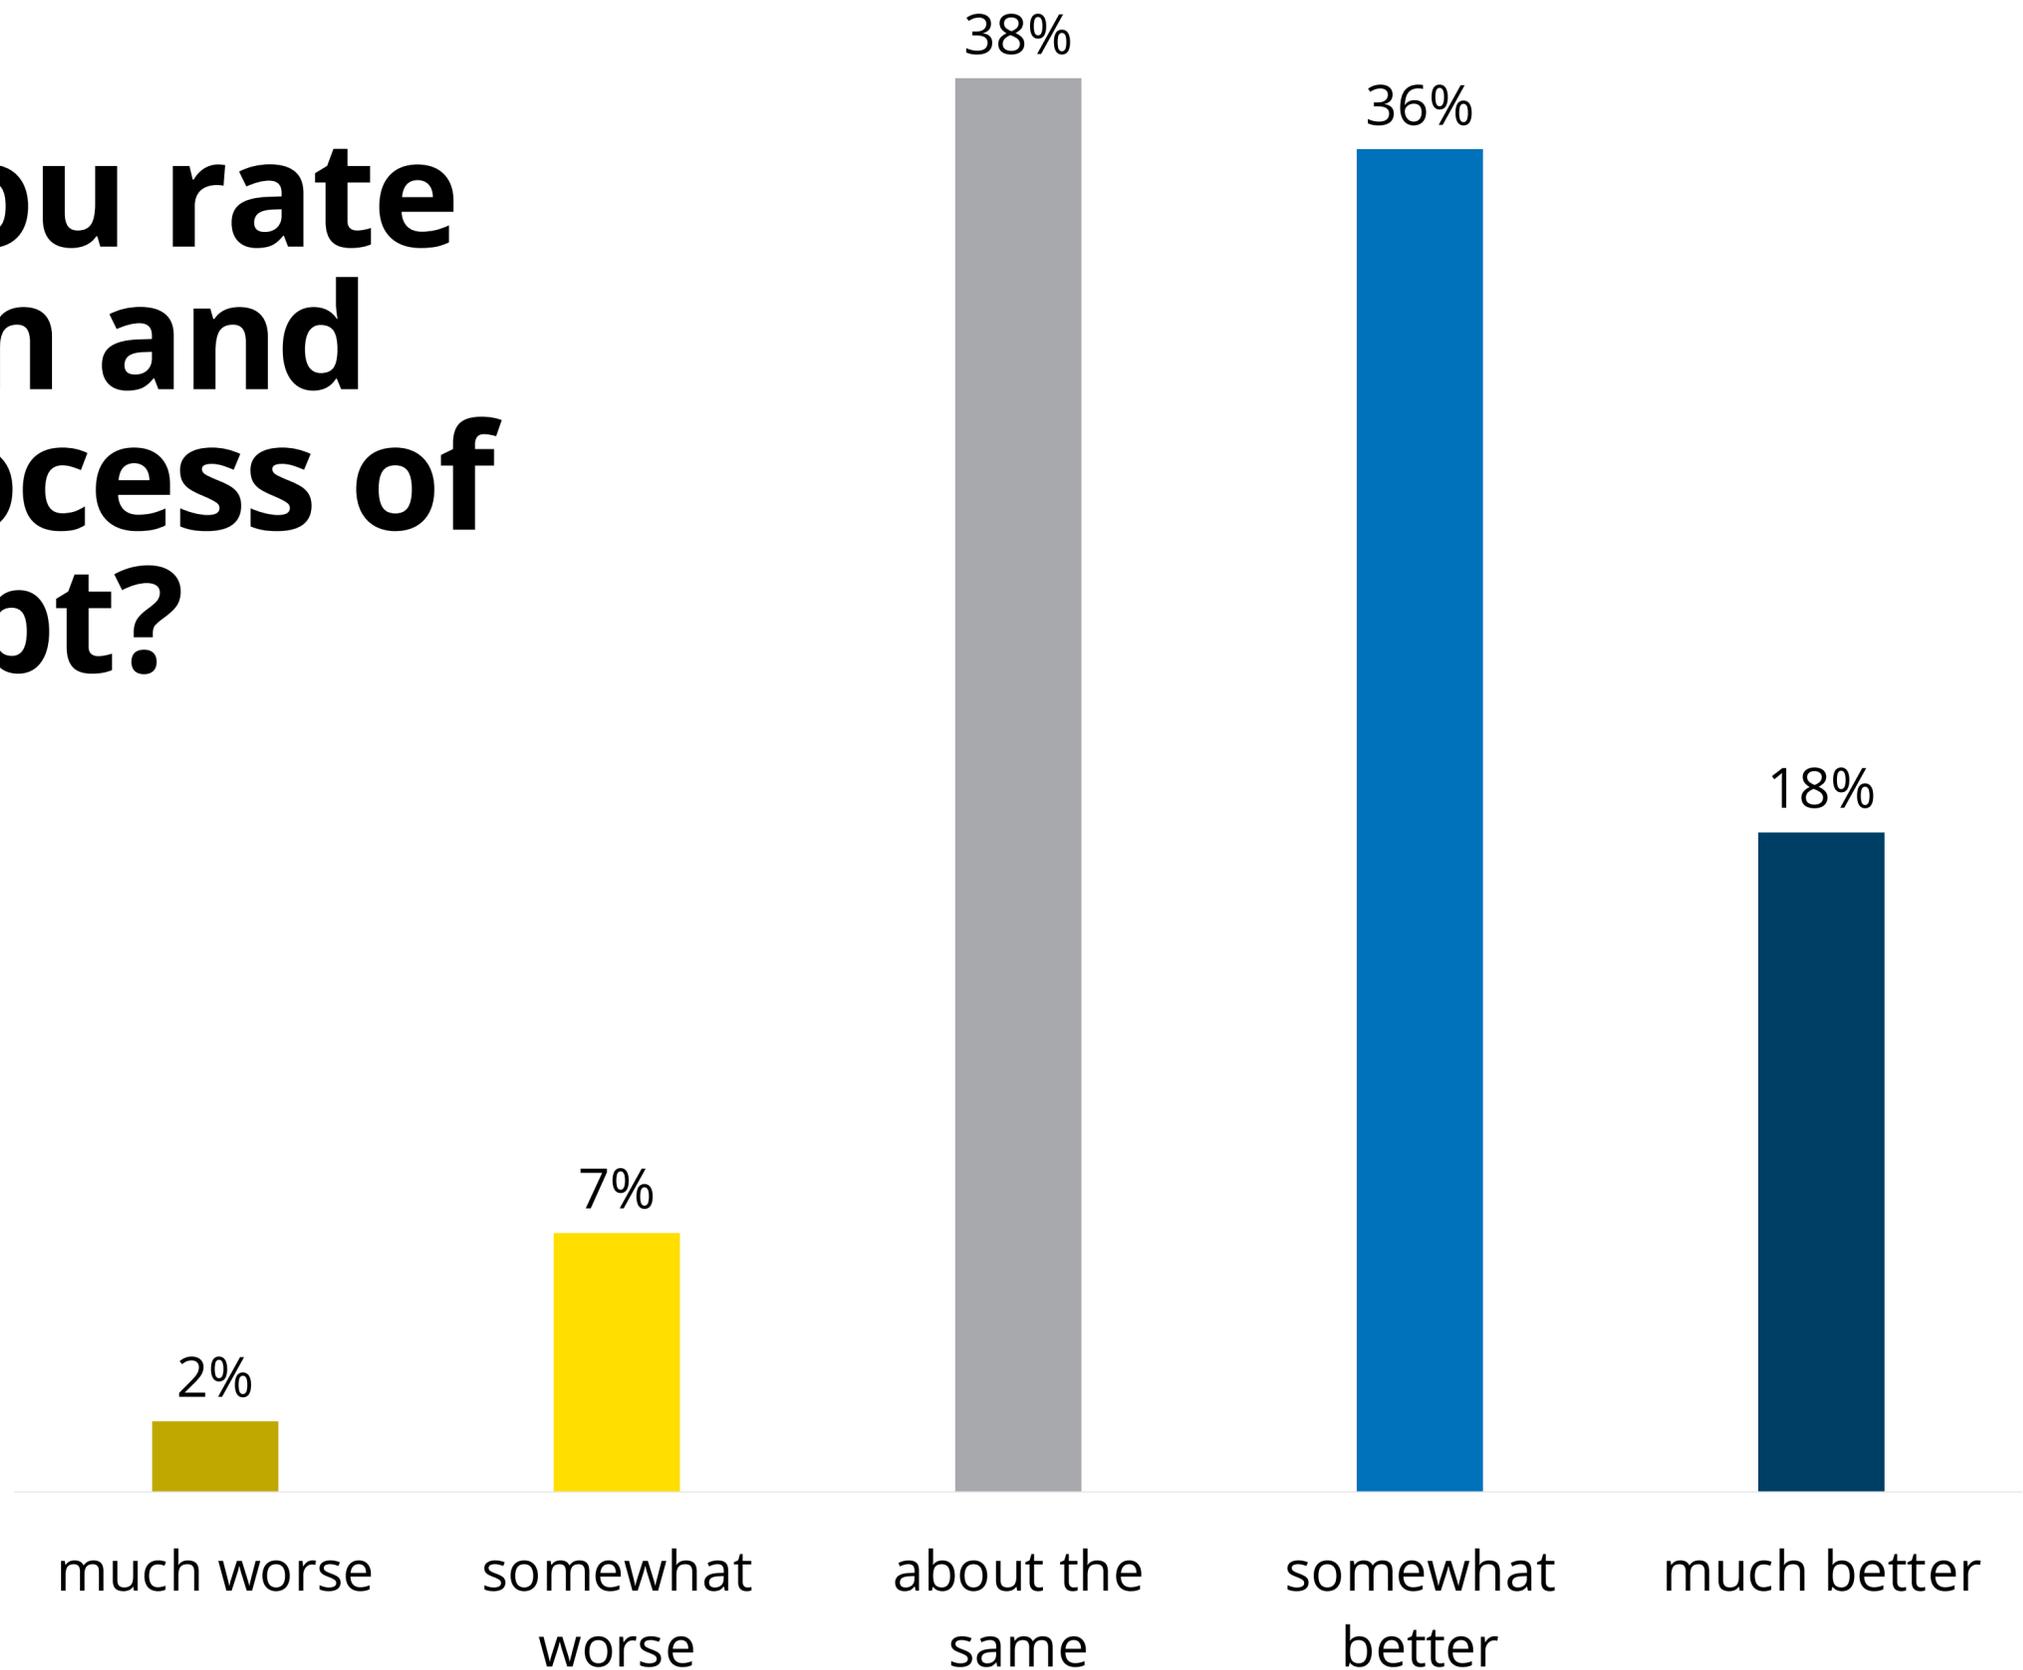

# Do you think the time it took from submission to publication was adequate?

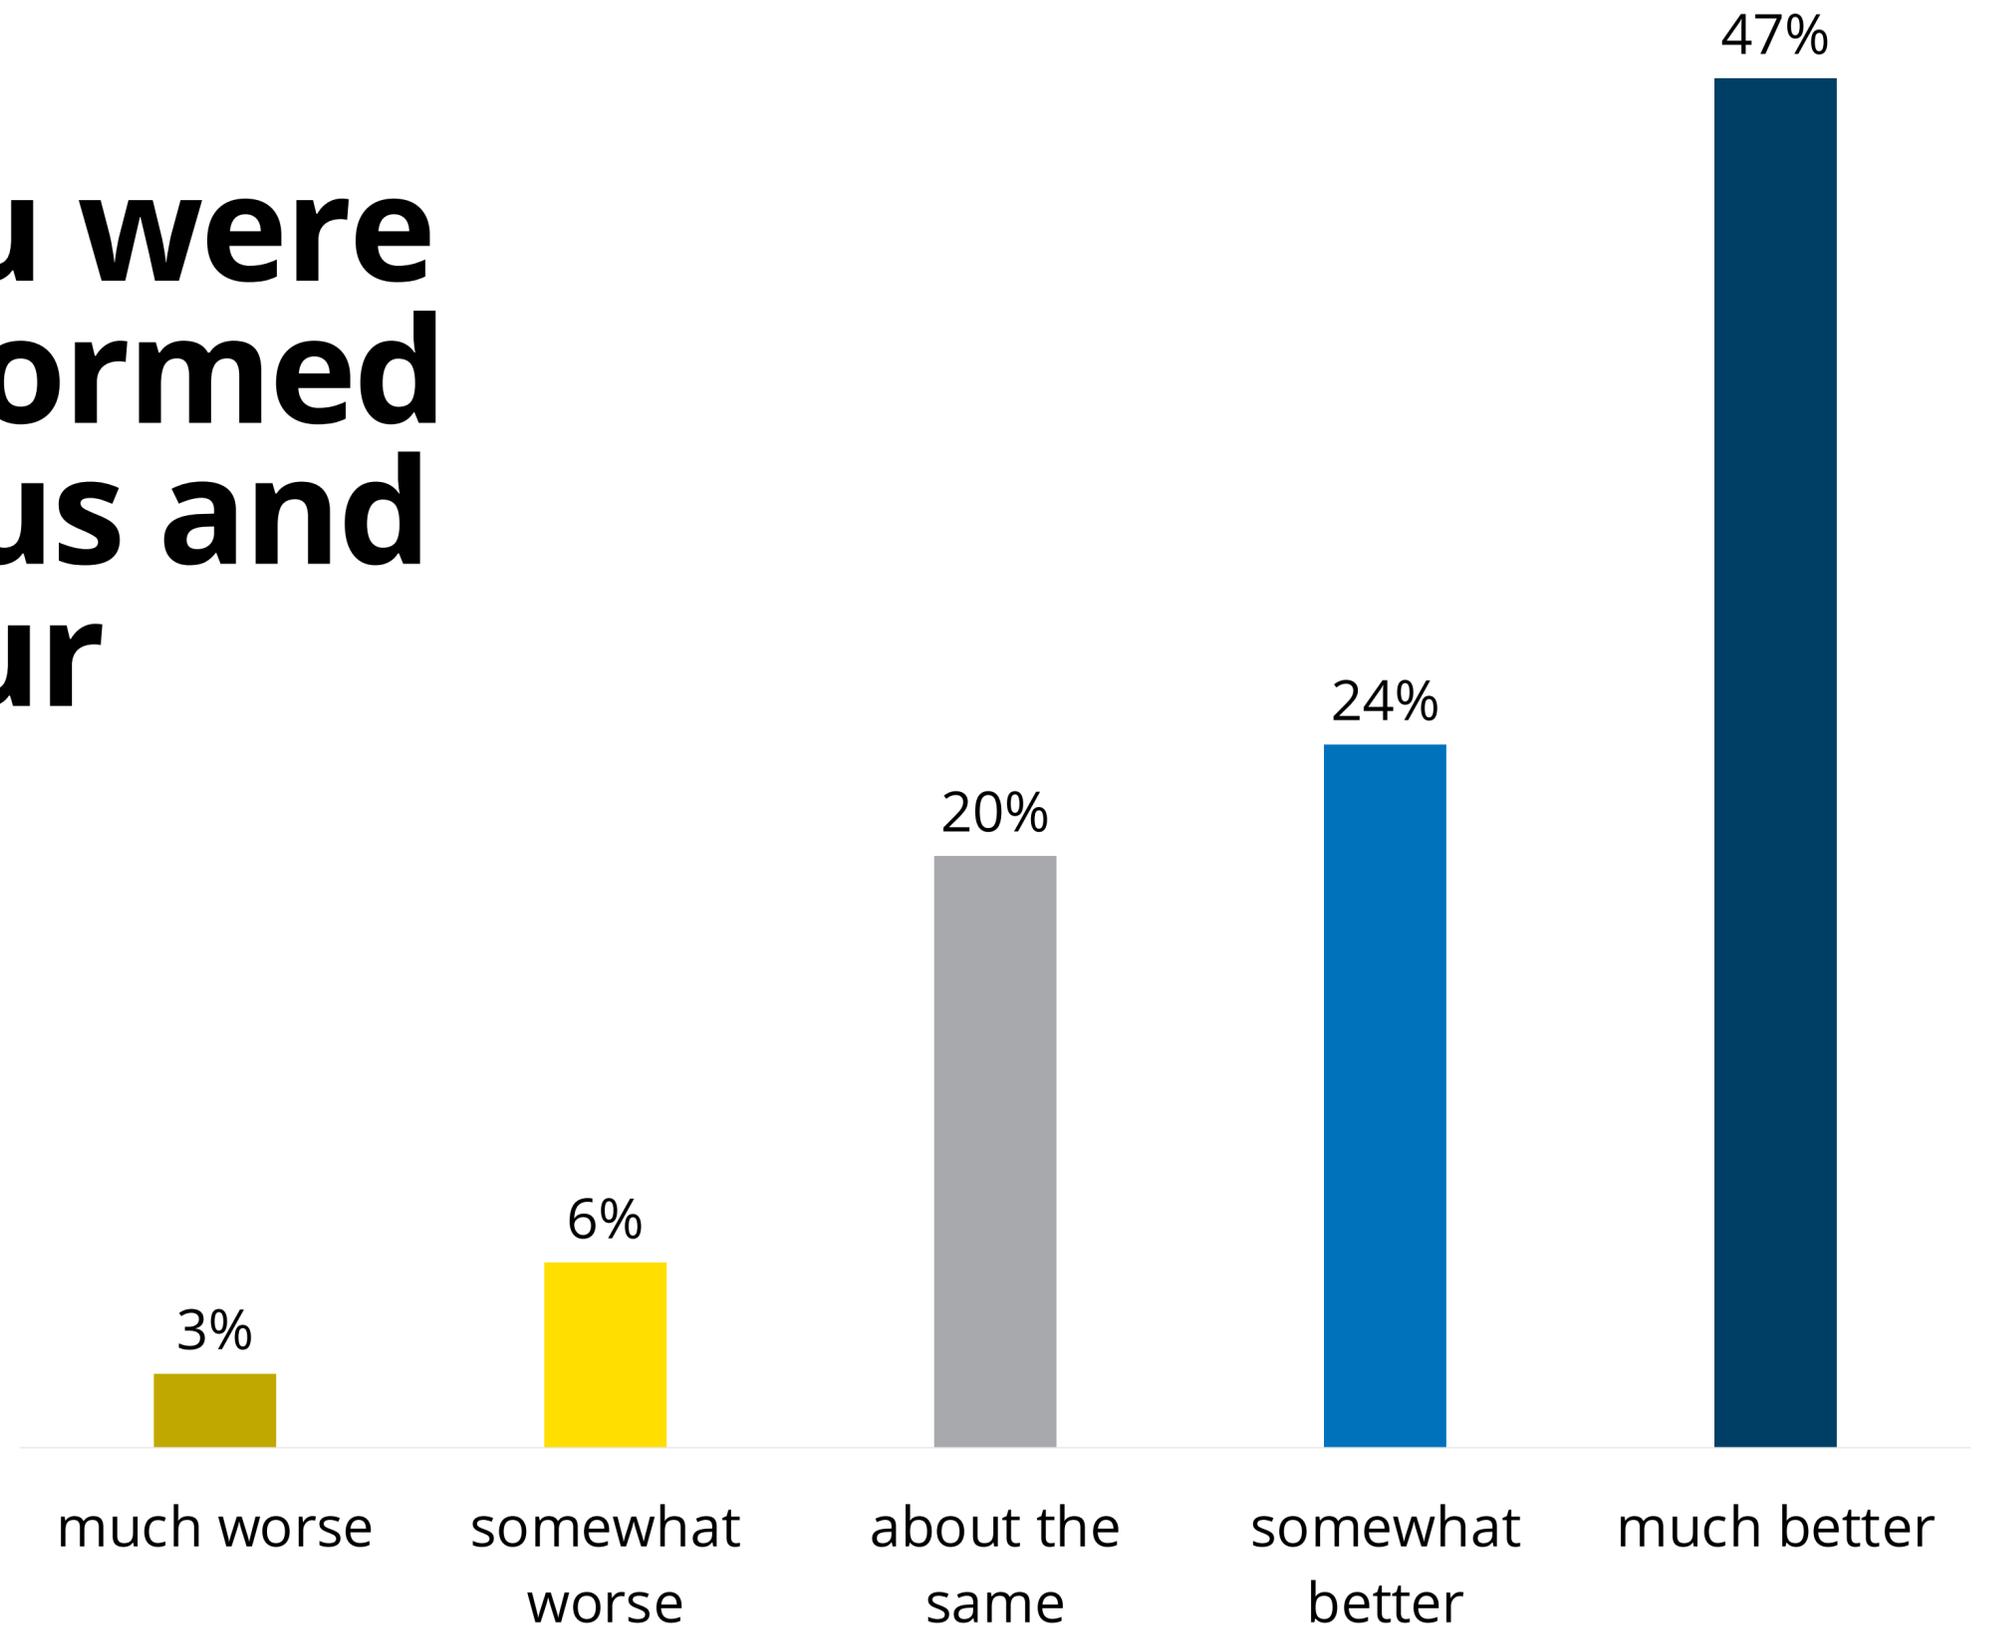

# Do you think that the page charges associated with the publication process were reasonable?

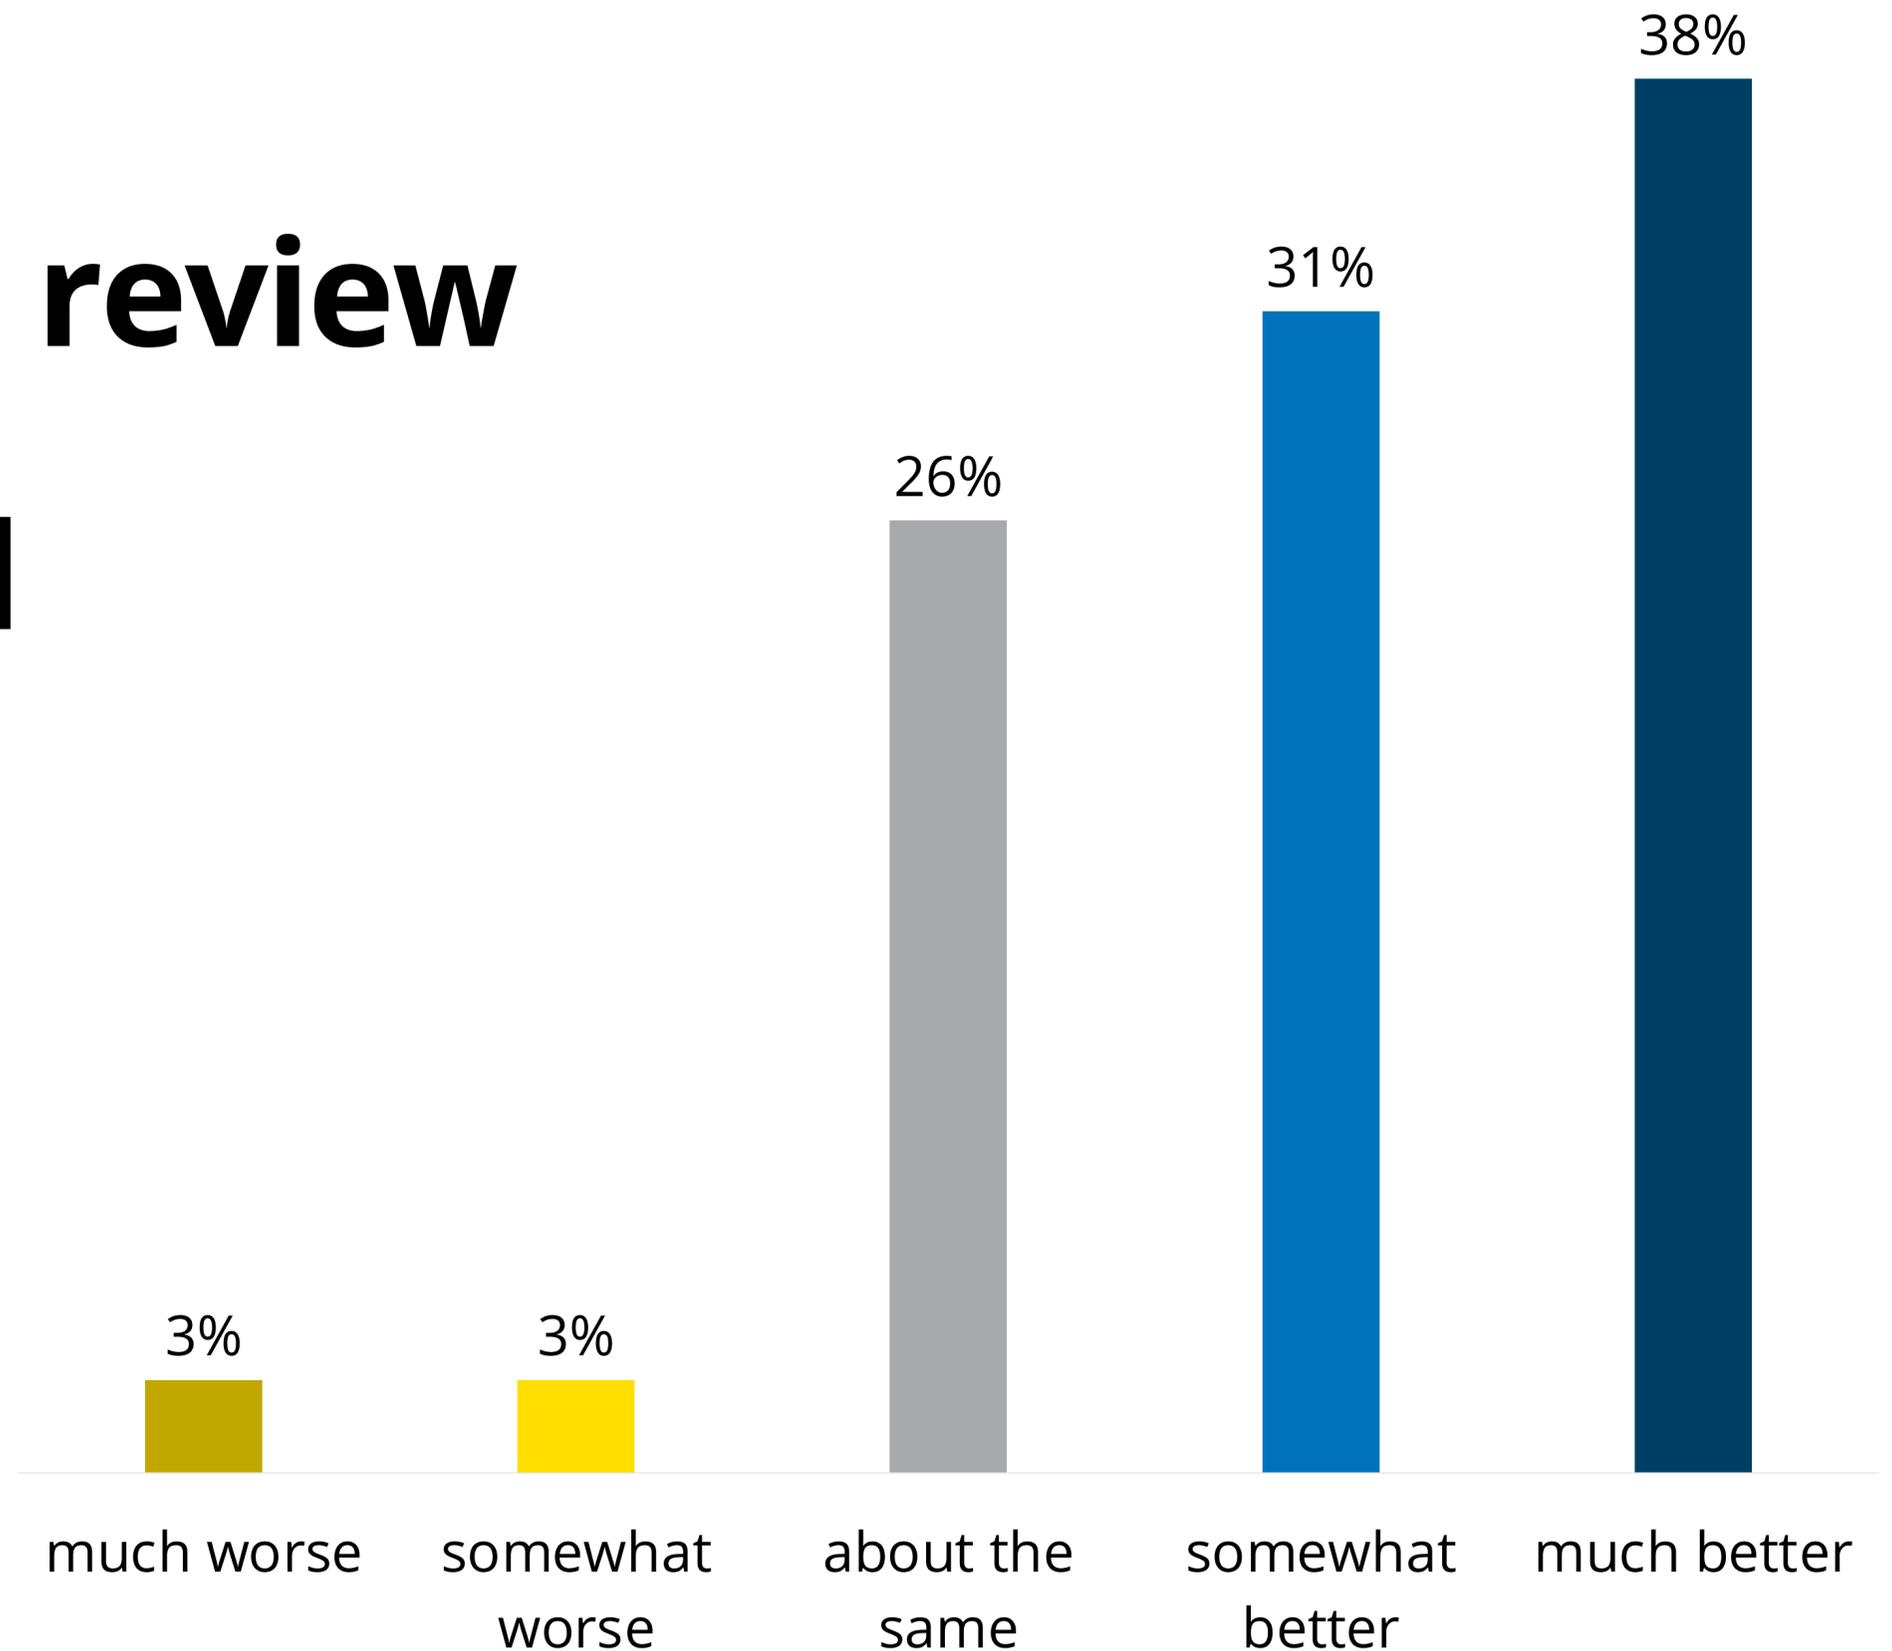

# How easy do you rate the preparation and submission process of your manuscript?

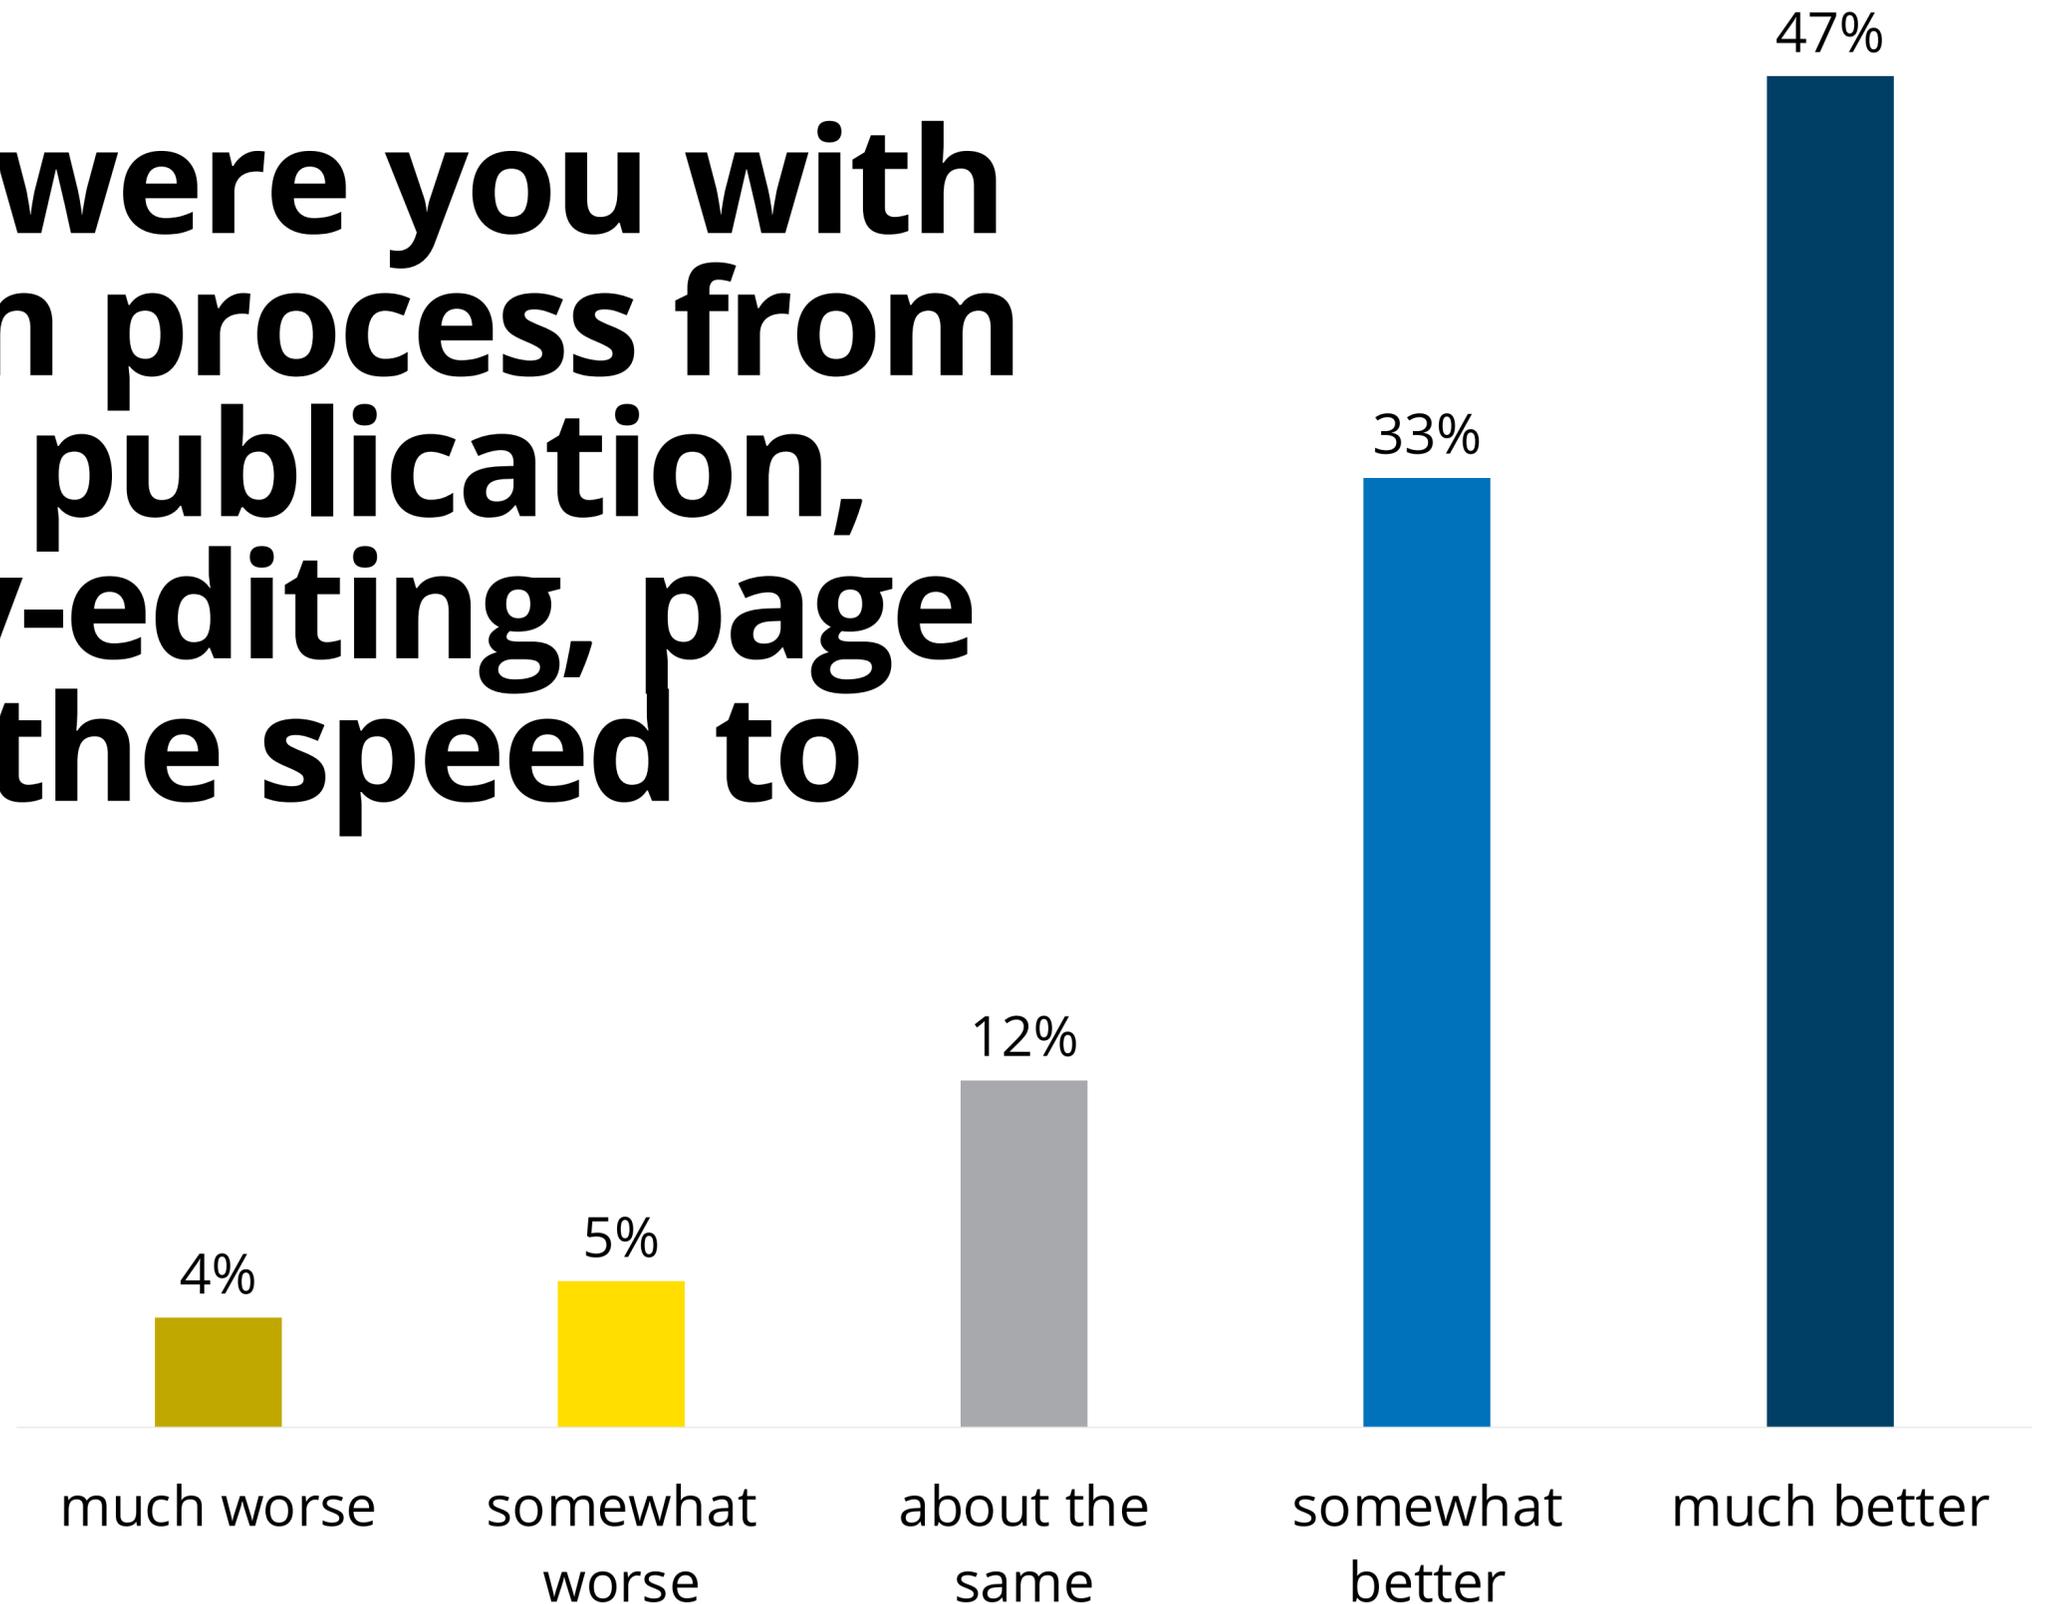

# Do you feel you were adequately informed about the status and progress of your manuscript evaluation?

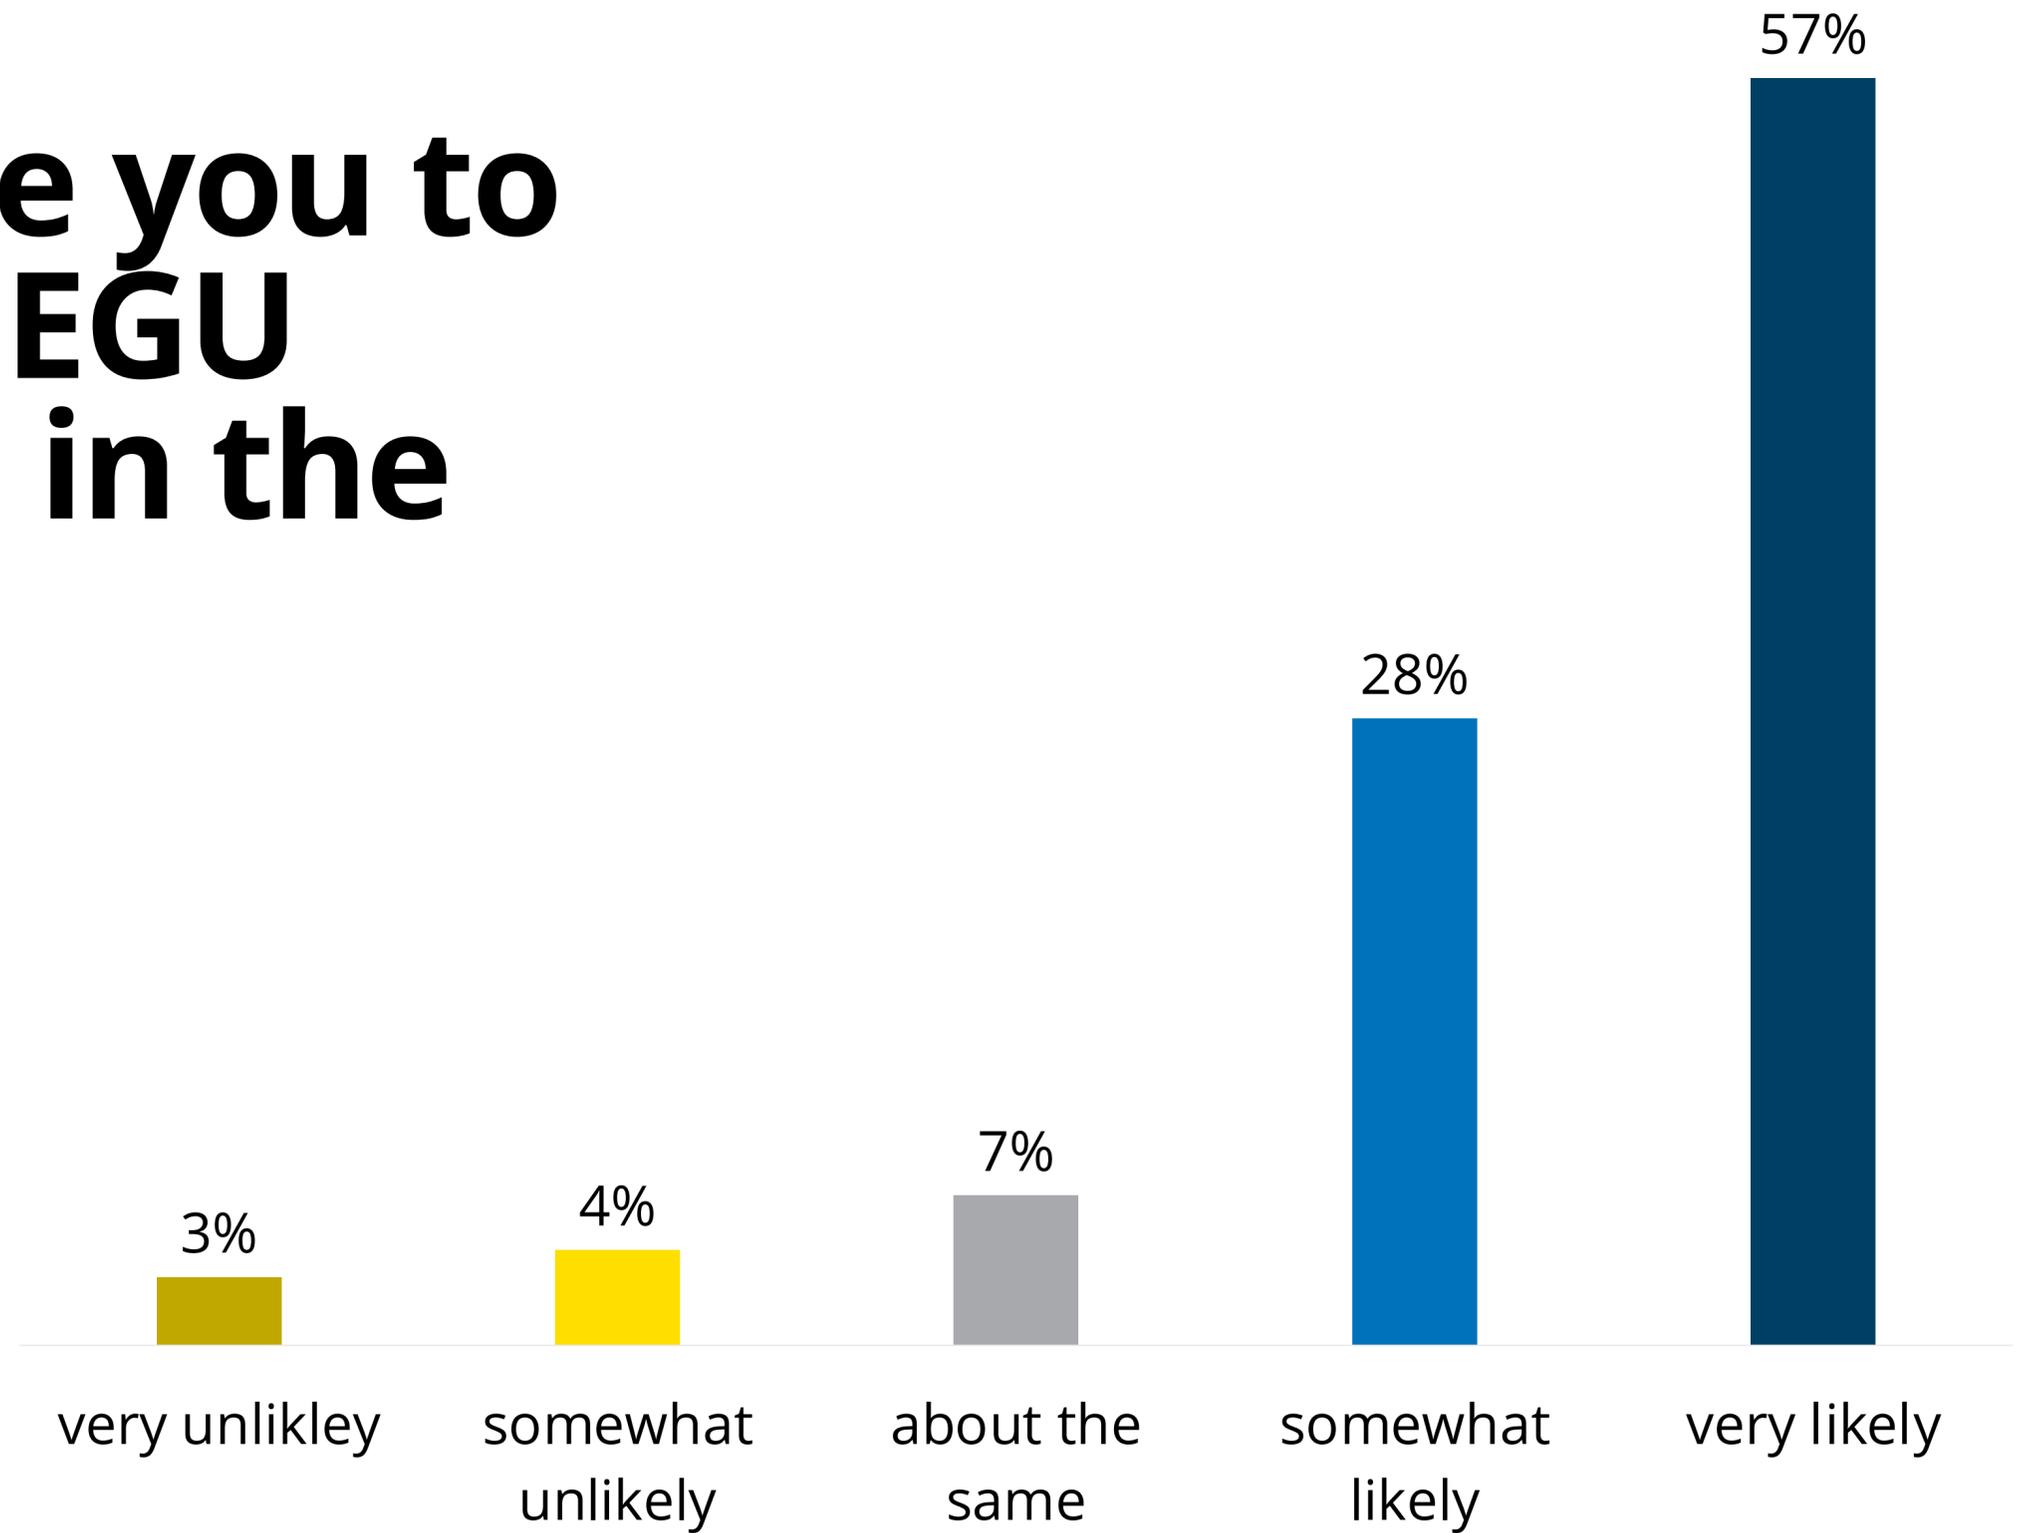

# Do you think the review process was fair, transparent, and constructive?

**How satisfied were you with the production process from acceptance to publication, including copy-editing, page proofing, and the speed to publication?**

# How likely are you to submit to an EGU journal again in the future?

# What were your reasons for submitting to EGU publications? Please check all that apply.
