# EGU Galileo conferences e co-sponsored Meetings

## EGU Galileo Conferences

The EGU Galileo conferences address well-focused cutting-edge topics at the frontier of geosciences research. The conferences are informal: the state-of-the-art is outlined in keynote presentations designed to trigger in-depth discussion of important aspects of the conference topic. EGU provides full organizational support to the EGU Galileo Conferences, thereby allowing Organizing Committees to focus on the scientific aspects of the conference.

Submission periods are usually from 1. December until end of February of the following year (3 months in total).

## EGU Co-Sponsored Meetings

The EGU Meetings Programme is dedicated to the pursuit of progress in all areas of the Earth, planetary and space sciences through excellence in the organisation and running of [conference series](#), [topical meetings](#), [workshops](#) and [training schools](#) for the benefit of all scientists and with special attention to the needs of early career researchers. Occasionally, the EGU can sponsor [external meetings](#), helping organisers achieve financial stability, visibility, and/or access to a larger target community.
