5. EGU & NH Meetings

EGU Galileo Conferences

- The EGU Galileo Conferences address well-focused cutting-edge topics at the frontier of geosciences research. The conferences are informal: the state-of-the-art is outlined in keynote presentations designed to trigger in-depth discussion of important aspects of the conference topic. EGU provides full organisational support to the EGU Galileo Conferences, thereby allowing organising committees to focus on the scientific aspects of the conference.
- **Submission periods are usually from 1. December until end of February of the following year**

EGU Co-Sponsored Meetings

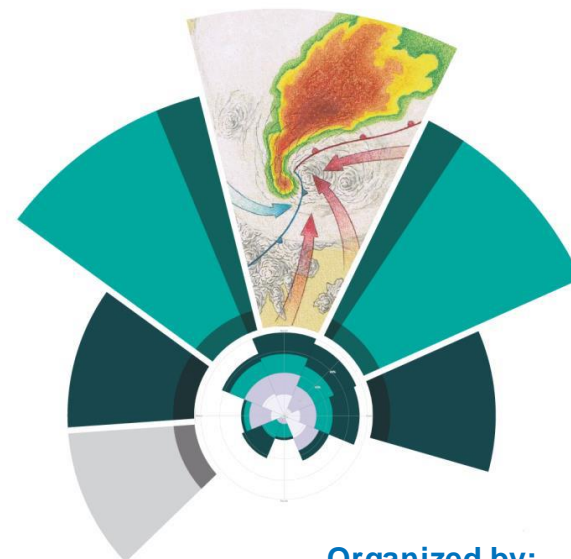

- The EGU meetings programme is dedicated to the pursuit of progress in all areas of the Earth, planetary and space sciences through the co-sponsoring of a number meetings. We strive for excellence in the organisation and running of **conference series, topical meetings, workshops, training schools and external meetings** for the benefit of all scientists. We pay special attention to the needs of early career researchers, and help organisers achieve financial stability, visibility, and/or access to a larger target community.
- Details here: <https://www.egu.eu/meetings/support-request/>
- **Submission periods are usually from 1. June – 15. August every year**
