GIFT - Geoscience Information for Teachers

GIFT 2024

THE CHANGING CLIMATE
OF OUR PLANET

Vienna, Austria, 14-17 April 2024

Kalimera Hallo
Hello
Welcome
Bomdia Bunaziua
Buongiorno Bienvenue
Hola

EGU | Education

Your workshop GIFT 2024

THE CHANGING CLIMATE OF OUR PLANET

8 Lectures

4 Hands-on session

70 Posters

90 teachers on-site

38 teachers on-line

But, the GIFT ...
more than a workshop!

Education

'Inspiring, updating and supporting geoscience teachers and educators'

Geoscience Information For Teachers Workshop 2024

Topic of this 22^o edition:
The changing Climate of our Planet

11 Lectures with high-level speakers

4 Hands-on

70 Posters

2,5 days workshop

90 teachers from 30 countries

Back home ... disseminate your experience!

Geoscience Education Field Officers Programme

Ask a GEFO for a training session in your country !
12 European countries concerned

44 Training sessions planned in Europe
Since 2019 ... \approx 2000 teachers trained

Apply to participate in the EGU Teacher-Scientist Pairing Scheme

Teacher-Scientist Pairing Scheme brings together school teachers and scientists to collaborate on developing and teaching a lesson plan

Ask a GEFO ...

Tertiary Education in Geoscience Initiatives

2024

The EGU Education Committee is inviting applications for its new Distinguished Lectures for Universities series with financial.

Applicants are invited to request a lecture to be hosted at their higher education institution from a select group of distinguished scientists to speak on subjects in the Earth, planetary and space sciences.

The series, an initiative of the EGU Education Committee, is available to support two successful applicants.

An illustration showing four diverse people interacting with various digital devices like smartphones and tablets. There are also icons for social media, a gear, and a speech bubble, suggesting a focus on digital communication and technology in education.
