

EMRP Division Meeting Wednesday 26 April 2017 , Room K2 - lunch time

Chair: Dr Angelo De Santis as President of EMRP Division.

The Division Meeting starts at 12:15

The attendees are around 75 (Please note that the sheet for the participants' signatures got stuck half way through so we have only the participant list of around half of the audience presents)

Dr. Angelo De Santis (ADS) takes stage.

Introduction to the meeting with a power point presentation.

He reminds the Meeting Agenda:

1. Welcome by the Division President
 2. Approval of the Agenda
 3. Division Officers
 4. Report on the Activities of EGU and the Division
 5. EGU 2017 & EMRP
 6. EMRP Medal Committees, Medallists, Awards
 7. Early Career Scientists Activities
 8. EGU Publications
 9. Any other business
- that is approved by all participants.

ADS reminds the EMRP Division officers who help him in the Division activities. By the way, he apologizes for the vice President Pedro Silva' absence.

New president nomination coming soon. The one who will be appointed will act as Vice-President for a year, to work with the present President of EMRP division before he takes over (2019 EGU General Assembly).

2017 EGU general assembly overall numbers increased (for number of participants, number of abstracts, for number of joint sessions with other divisions), and with higher percentages the EMRP Division.

Communication activities: announcement of the two medalists (Peregrinus Medal to John Tarduno; Neel Medal to Chris Spiers) and other information useful for the Division Meeting attendees.
Advise the participants to appoint medals nominations by next 15 June 2017.

Announcement of Marie Violay ECS medalist and the OSPP to Luke Griffith.

ADS then announces Dr. Stephanie Zihms, ECS representative for EMRP Division, for her ECS report. She takes stage, reports the most important activities related to ECS (Division website, Fb and other social media) and advises to refer to her or to the Division President for any suggestion and new candidature of the next year who will help her before taking over next year (2018).

ADS takes stage again, reminds to contribute scientific publication to EGU Journals. He also asks if there are other business requests. No response from audience. He finally acknowledges the audience, recommending to take part to the most significant activities of EGU and announces the dates of the next EGU to be held in Vienna on 8-13 April 2018.

The Meeting finishes at 13:00.
