Responsible for the Division programme at General Assemblies. Members are appointed by the President (chair)

PC 2012 – 2013

- **F. Storti** – Chair (TS Division President)
- **S. Buiter** – General Contributions (TS Vice President)
- **D. Koehn** – Brittle Deformation
- **L. Montesi** – Ductile Deformation, Metamorphism and Magmatism
- **C. Petit** – Interplay between tectonic and surface processes
- **G. Peron-Pinvidic** – Extensional Tectonics settings
- **M. Allen** – Convergent Tectonic settings
- **D. Cunningham** – Strike-slip Tectonic settings
- **M. Meghraoui** – Earthquakes and Tectonics
- **M. Frehner** – Methods and Techniques in Tectonics and Struct. Geol.
- **G. Booth-Rea** – Regional Tectonics

TS awards

Stephan Mueller Medal

Awarded to “mid career” researchers. Outstanding emeritus researchers will compete for the Union Medals, 1 out of 4 goes to the “solid earth area” (Arthur Holmes medal)

TS awards

4 Union OYSA

Arne Richter Award

F. Storti (chair), Giulio di Toro, Paola Vannucchi,
Olivier Galland (past Arne Richter awardees for TS),
Marta Perez Gussiny

Outstanding TS Young Scientist Award 2012

André R. Niemeijer

For his exceptional work on the effects of fluid-rock interactions and fabric development on rock and fault mechanical properties.

Congratulations

André!

TS awards

TS OYSA 2013:

**Absolute deadline for
submitting nomination
packages: **June 15^o**.**

We have to rush!

TS Awards

TS OYSA 2013

3. Ductile deformation, metamorphism and magmatism
4. Interplay between tectonic and surface processes
5. Extensional tectonics settings
6. Convergent tectonic settings
7. Strike-slip tectonic settings
8. Earthquakes and tectonics
9. Methods and techniques in TS
10. Regional tectonics

} **New in
2012!**

How do we build the programme?

Bottom-up – your input is extremely important!

- ‘Skeleton’-programme (Summer)
- Call-for-sessions (July-September)
- First session programme (38) (October)
- Call-for-abstracts
- Merges... (February)
- Final session programme (27) (March)

Open philosophy does imply later session merges

We need your feedback on the programme!

- Main themes
- Sessions
- Collaborations/overlaps/gaps
- Rooms.....

TS Outreach

EGU supports the **GIFT**
programme

*(Geosciences Information For Teachers;
chair: C. Laj)*

80 -100 teachers at the GA every year
They have a special programme

TS Outreach

- ✓ Platform for **free EU research and ITN project meetings** (splinter rooms)
- ✓ Platform for **National societies to meet regularly at EGU**
First meeting at EGU 2012

TS Outreach

EGU supports **Topical Meetings,**
Thematic Conference Series,
Workshops and Summer/Winter
Schools

Free short courses and mentoring

Send proposals to me: fabrizio.storti@unipr.it

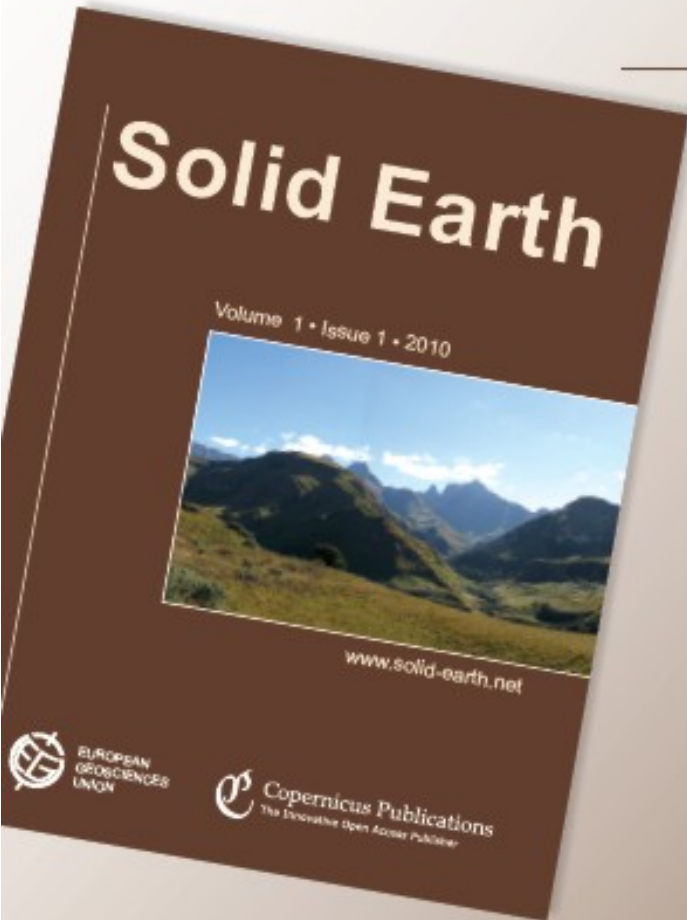

Second edition

Aims and Scope

Solid Earth (SE) is an international scientific journal dedicated to the publication and discussion of multidisciplinary research on the composition, structure and dynamics of the Earth from the surface to the deep interior at all spatial and temporal scales.

The journal invites short communications, research articles, review articles and commentaries on all aspects of the Solid Earth, comprising of observational, experimental, and theoretical investigations.

The main subject areas include geochemistry, geodesy, geodynamics, geomorphology, geophysics, magma and rock physics, magnetism, mineral physics, palaeontology, sedimentology, seismology, soil system science, stratigraphy, structural geology, tectonophysics and volcanology.
